Beautiful! Too short, one more hour of gameplay and it would be absolutely perfect. Don't stop guys, your Arizona Sunshine and now this one are the best VR games right now.. Nobody told me we were racing black screens. But hey, profit from trading cards? Yes please.. So I want to make it short but I really can't. This is probably the best game I have ever played. I've spent only a couple of hours on this brilliant game and it just warms up my heart. But let me tell you guys why this game is actually good.

SOUND:

The soundtrack of this game is just beautiful. I've never heard something like this. You just need to give it a chance and listen to it yourself. I would like to get the original soundtrack in the steam store but sadly they didn't publish it yet, but hopefully they will after a short period of time. I would be ready to spend up to \$20 on the original soundtrack.

GRAPHICS:

We all know this isn't the best when it's coming to graphics, but this is probably better than every triple A game which came out in 2016. Don't forget that this is an Indie Developer making this game. I feel like it's going to be better after a while.

GAMEPLAY:

Since I don't have a VR compatible device I can't really go on from where they get blewn the ♥♥♥♥♥ up, but just standing there and hearing the people cry and shout for 2 hours is enough gameplay for me. I want to say it's the best gameplay from the JRPG gaming scene but I haven't played much JRPG yet.

This game is a solid 9.837/10. simple, classic game. If you'd rather be certain you can actually launch this game without it insta-crashing (regardless of settings), don't purchase this game on Steam until they properly address the issue, fix the damn problem and start replying to support enquiries.

Potential waste of 5 bucks and time.

. This game I remember playing when I was like 11 back when Novalogic was still around and this game was so awesome. I wish it was a bit more expanded but for its time it was amazing. Plus BRUCE F'N CAMPBELL!!!. Plays Multiplayer Match With Friend

Sends Scout to Friends Base

Turns Out he has 1000 jeeps at his base

i tell my scout to throw a grenade at the jeeps

Then a hear a loud BOOM!

then my game crashed

10/10 Would Crash Again. Why I bought a DLC but my can't get Item in game. I have bought and lost money. Please help me.
I'm not good at English. Please

Short version: A cool glass of lemonade on a scorching day. It doesn't last long but it's refreshing.

I would have no problems seeing an entire novel written on the premise of this game. It's a pleasant slice-of-life adventure fiction, two quality hours with a New Game plus mode that adds bonus features.

The gameplay is interesting but not deep, which fits within the context of using the time available in your week of game time wisely.

Try it out.. **CONTROLLERS DONT WORK**. A strange game that will put you in an awkward position - as an invalid on a wheelchair. The game tells about the difficulties that people overcome every day, teaches treating disabled people as ordinary people. The game throws you into the most unusual places, each level as a new challenge. Willy-nilly, you think that the most ordinary things - it seems not so simple when you are on a wheelchair.

Love that experience.. A small puzzle game. Doesn't have that many puzzles in it, but it can be challenging :) The soundtrack is good and the artwork nice too :)

Also, the whole translation part is pretty interesting and makes this experience somehow unique.

I recommend this game to every person who can enjoy puzzle games :). Ridiculously difficult. I have no idea how anyone could beat this game, let alone get past stage 2. With only 2 continues, getting to the end must be insanity. I really like it and the aesthetic, but I have no idea how one could get to the end, sometimes you are forced to take hits, so I guess it is entirely up to luck. Also the elevator..... and dogs..... and grenades. Solid 6/10, you may enjoy it for awhile, but this definitely ain't fair.. This game is boring and bland... Not worth your hard earned pennies.. Got a refund after a few minutes of playing. It literally has 2 minutes of gameplay. If you believe streaming is a two button process grind, it's your game. Otherwise I wouldn't recommend it. If the game was \$0.99 you know MAYBE I'd say sure, have a good laugh.. The game is very fun, but it only has local multiplayer that you need controllers for and the controls don't work very well on pc. The game does have a few missions to try out, 2 groups of shooting targets, 1 static and 1 moving, 2 groups of races to an objective, 1 on platformers and the other while fired upon. These are fun, but don't make the game worth it if you can't do local multiplayer.. Fun for a bit, but can get boring pretty quick.
