### About This Game

**You don't need to have played the first Spaceman Sparkles game (it's terrible anyway) I'm pretty much just counting so I'll reach Sparkles 64 one day!**

Spaceman Sparkles 2 is a frantic and groovy bullet-hell that takes place in a thumpin' disco universe. Calm your nerves with the sick beats by **Aeroloid** (and a chippy guest track by **Death M.D.**) in this painfully difficult shooter, you'll be begging for mercy while bobbing your head to the beat. Equipped with a rave gun, teleportation boots and giant hammers, you'll lead Sparkles through space and time to defeat mysterious beings of light, collect the 24 glowsticks of legend and retrieve his stolen throne in this grueling adventure.

**"You'll never shine if you don't glow." - Typo**

This is, without a doubt, the most fun you can have while screaming the lyrics to a MIDI version of Starship's 'We Built This City'.

10/10, will be thinking about Lightmare in my sleep again.. This game is really lovely.

It's got an interesting concept. Only black and white, only three action keys, very minimalist, with some beautifully designed levels. It's deceptively simple. Once you get the hang of the basic mechanics then you're good to go, but this game is definitely all about timing more than anything else.

It's very short, and because of that i'd say it's not worth the full price of £5.59. However this is definitely one to pick up on sale. I played this while on a bit of a platformer kick, and I'm definitely enjoying it.. Sorry, but this game is not worth buying.

After only a few playthroughs the whole story already repeats itself. I absolutely expected more variety and a more interesting story.. QP Shooting – Dangerous!! has managed to sucker me right in not only with its brave you-die-you-lose foundation, but how it manages to provide enough different ways to play that it pays homage to several of the shooters of my past all at once. And it's adorable, yes that much is true, but it's just a malicious veneer. But you're still going to fall for it – just like I did.

Full Review // <http://www.honestgamers.com/12423/pc/qp-shooting-dangerous/review.html>. Great game if you liek making money! I can't stop.. I gave up on this one. I was really looking forward to something similar to Monkey Island series, but have found the mechanics to be clunky and the puzzles not really intuitive. Maybe I'll give it another go down the road, as I want to like this game.

I played the demo for this game when I was like 8 on the 360 and really liked it, but I never got the full game. Until now and I got to say it was as good as I remembered which was a surprise to be sure, but a welcome one.. Flat Path is a great simple puzzle game that isn't trying to be something it's not.

If you have some time to kill, this is a perfect little game to keep you busy.

. Great game if you play it with friends. It might be buggy and a bit lacking yet forgiving. 8/10. Leave this game page and never look back

This game is not worth contemplating, this game is not bad enough to be funny, this game is not even worth the little bit of time it takes to download.

Don't look back and leave immediately.. I picked this up mainly because the screenshots looked appealing, and I'm glad I did. It completely fulfills the promise of the screenshots. If you find the screenshots appealing, you will probably like the game.

Basically it's a RTS/Tower Defense about fighting for territory against an ocean.
